## About Global Blockchain Technology Summit

BlockTrain and Draper Dragon are hosting the Global Blockchain Technology Summit on May 6th, 2018 at the Santa Clara Convention Center in Silicon Valley, USA. The event plans to attract more than 1,500 attendees from all over the world. This summit will be the first of its kind focusing on the distributed ledger technology projects. There will be 50 selected top-notch blockchain projects presenting their products, services, technology innovation, development progress and expansion roadmaps. Another 20+ blockchain companies at different growth stages will showcase their projects in our exhibition area.

From the underlying technology to infrastructures and protocols, from hardware and software developments to applications in AI, IOT, industrials, entertainment and more, we aim to demonstrate the advancement of the distributed ledger technology and discuss its applications in various industries.

The summit will gather world-class venture capitalists, digital asset investors, entrepreneurs, industry professionals, technology pioneers, blockchain incubators, media platforms and regulation experts from the United States, China, Japan and Europe. There will be extensive networking, media exposure and potential strategic partnership opportunities.
